Our Strategy and Process

Investment Strategy and Process

Fixed income value investors

Quality credits
Wide spreads

Credit analysis is our core strength

Free cash flow based
Wide margins of safety

In-house research/ideas

No Wall Street reports
No reliance on rating agencies

Vigilant about our circle of competence

Consumer, industrial, service, low tech
No banks or broker dealers

Lender's approach to fixed income markets

Long-term lending vs. short-term trading

Intermediate duration manager

Average duration of 4 years
No speculation on interest rates

Concentrated portfolios of 25-45 issuers

Not a proxy for any benchmark

Investment Process

1) Screen

2) Analyze

3) Model

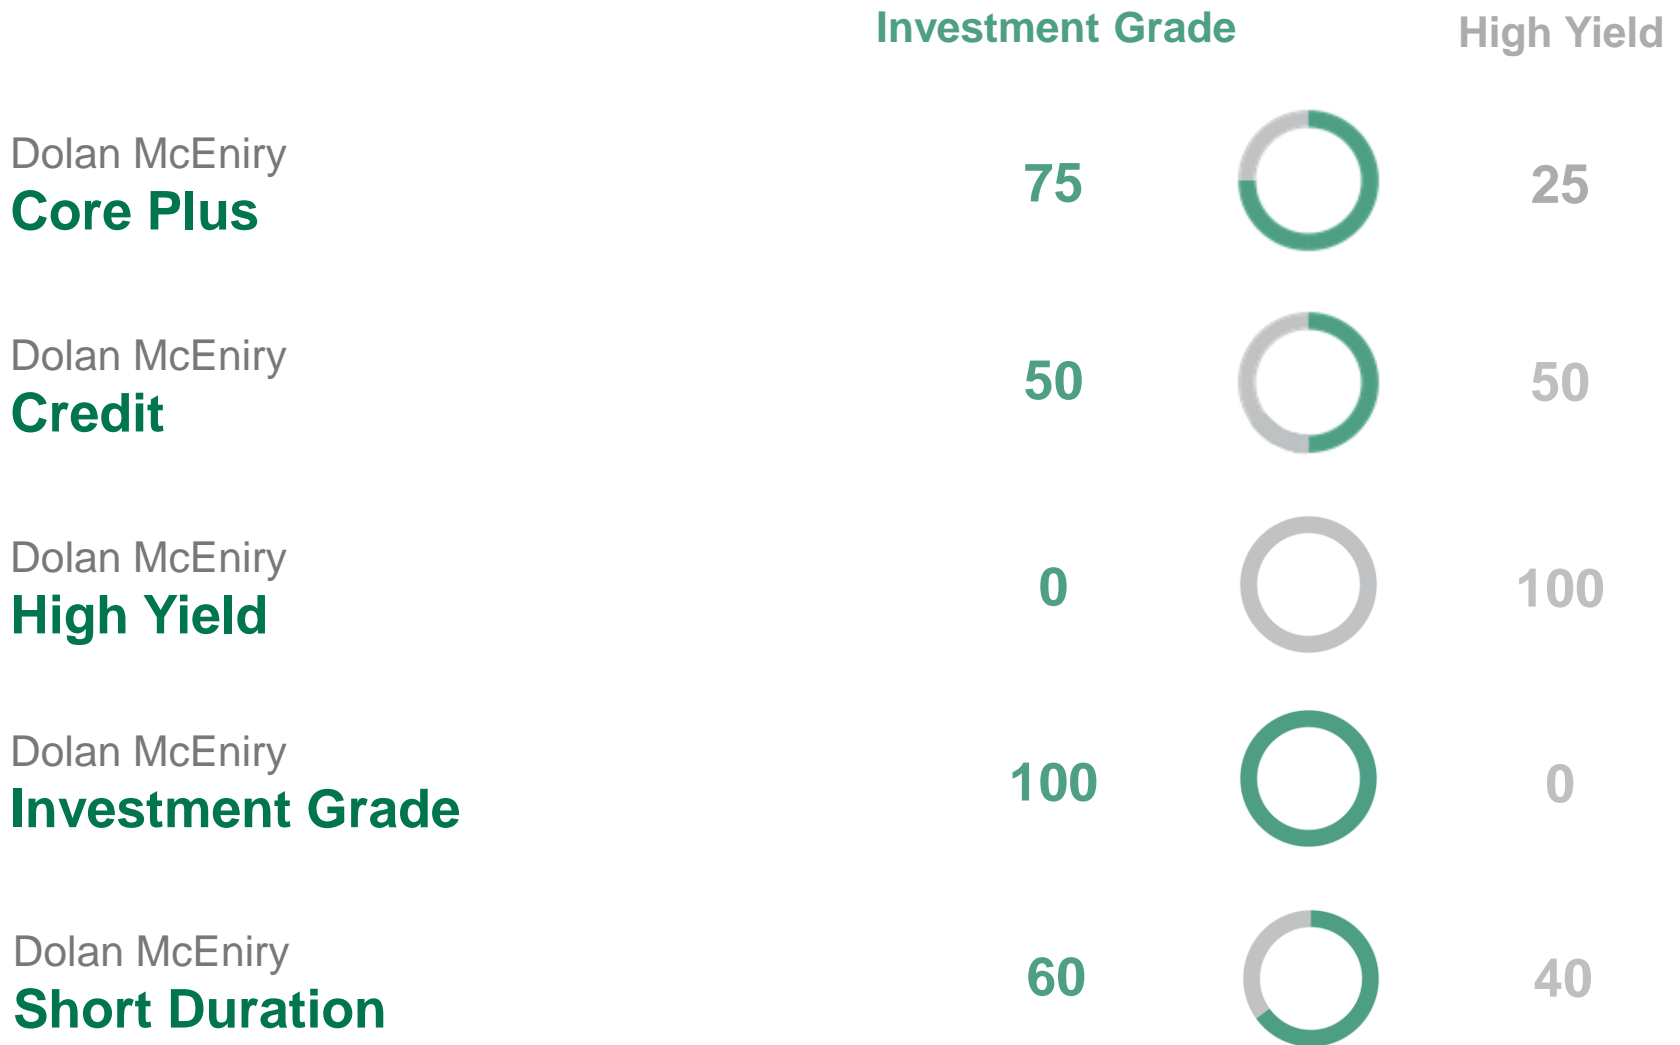

4) Invest

- Corporate Bonds
- 5 Year Treasury

1. The corporate bond index is a blend composed of 80% Bloomberg Intermediate Credit and 20% Bloomberg U.S. Corporate High Yield Ba/B.

Periods of Rising Interest Rates

Dolan McEnery Core Plus outperforms

Six-month periods when the 10 Year Treasury increased more than 75bps

Index returns based upon return information provided through Barclays Live. Six-month time periods where the 10-year treasury increased by more than 75bps since the Core Plus product inception of 9/30/1997 are displayed. Since 1997, there have been 26 instances of this. Some of these instances occurred during the same fiscal year. In those instances, the time period that had the largest rate increase was selected. Dolan McEnery Core Plus net returns are shown. Returns for periods exceeding 12 months are annualized. Past performance is no guarantee of future results. Please see composite disclosures for benchmark definitions located in the appendix.

Periods of Rising Interest Rates

Dolan McEnery Credit outperforms

Six-month periods when the 10 Year Treasury increased more than 75bps

Index returns based upon return information provided through Barclays Live. Six-month time periods where the 10-year treasury increased by more than 75bps since the Credit product inception of 12/31/2008 are displayed. Since 1997, there have been 26 instances of this. Some of these instances occurred during the same fiscal year. In those instances, the time period that had the largest rate increase was selected. Dolan McEnery Credit net returns are shown. Returns for periods exceeding 12 months are annualized. Past performance is no guarantee of future results. Please see composite disclosures for benchmark definitions located in the appendix.

Periods of Rising Interest Rates

Dolan McEnry Investment Grade outperforms

Six-month periods when the 10 Year Treasury increased more than 75bps

Index returns based upon return information provided through Barclays Live. Six-month time periods where the 10-year treasury increased by more than 75bps since the Investment Grade product inception of 9/30/2003 are displayed. Since 1997, there have been 26 instances of this. Some of these instances occurred during the same fiscal year. In those instances, the time period that had the largest rate increase was selected. Dolan McEnry Investment Grade net returns are shown. Returns for periods exceeding 12 months are annualized. Past performance is no guarantee of future results. Please see composite disclosures for benchmark definitions located in the appendix.

Periods of Rising Interest Rates

Dolan McEntery High Yield

Six-month periods when the 10 Year Treasury increased more than 75bps

Index returns based upon return information provided through Barclays Live. Six-month time periods where the 10-year treasury increased by more than 75bps since the High Yield product inception of 9/30/2015 are displayed. Since 1997, there have been 26 instances of this. Some of these instances occurred during the same fiscal year. In those instances, the time period that had the largest rate increase was selected. Dolan McEntery High Yield net returns are shown. Returns for periods exceeding 12 months are annualized. Past performance is no guarantee of future results. Please see composite disclosures for benchmark definitions located in the appendix.

Periods of Rising Interest Rates

Dolan McEnery Short Duration outperforms

Six-month periods when the 10 Year Treasury increased more than 75bps

Index returns based upon return information provided through Barclays Live. Six-month time periods where the 10-year treasury increased by more than 75bps since the Short Duration product inception of 12/31/2014 are displayed. Since 1997, there have been 26 instances of this. Some of these instances occurred during the same fiscal year. In those instances, the time period that had the largest rate increase was selected. Dolan McEnery Short Duration net returns are shown. Returns for periods exceeding 12 months are annualized. Past performance is no guarantee of future results. Please see composite disclosures for benchmark definitions located in the appendix.

Long-term thoughtfulness triumphs over short-term behavior.

Disclosures

Dolan McEniry Core Plus

Compliance Statement

Dolan McEniry Capital Management, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Dolan McEniry Capital Management, LLC has been independently verified for the periods September 30, 1997 through December 31, 2021. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Dolan McEniry Core Plus Composite has had a performance examination for the periods September 30, 1997 through December 31, 2021. The verification and performance examination reports are available upon request.

*Dolan McEniry Core Plus inception date is September 30, 1997; 1997 is a three month period.

Definition of the Firm

Dolan McEniry Capital Management, LLC is an independent investment management firm established in 1997 and is an SEC registered investment adviser. Registration of an adviser does not imply a certain level of skill or training. Dolan McEniry Capital Management, LLC manages fixed income accounts utilizing Dolan McEniry's specific strategies for institutional and individual clients.

Definition of the Composite

Dolan McEniry Core Plus is a fixed income investment product benchmarked against the Bloomberg U.S. Aggregate Index or the Bloomberg U.S. Intermediate Credit Index. In this strategy, the firm utilizes U.S. corporate investment grade, U.S. corporate high yield and U.S. Treasury securities. Dolan McEniry Core Plus is approximately 75% U.S. corporate investment grade bonds and 25% U.S. corporate high yield bonds. The Dolan McEniry Core Plus Composite was established and created on September 30, 1997.

Dolan McEniry began including accounts that are valued under \$1,000,000 USD in the composite as of December 31, 2009. Prior to December 31, 2009 an account had to have a value over \$1,000,000 USD to be included in the composite.

Non-fee paying accounts represented less than 2% of the composite assets for all periods shown.

Benchmark

Bloomberg U.S. Aggregate Index

The Index is a broad-based flagship benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market. The Index includes Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-throughs), ABS, and CMBS (agency and non-agency).

Bloomberg U.S. Intermediate Credit Index

The Index is the intermediate component of the Bloomberg U.S. Credit Index. The Bloomberg U.S. Credit Index measures the investment grade, US dollar-denominated, fixed-rate, taxable, corporate and government –related bond markets. It is composed of the US Corporate Index and a non-corporate component that includes foreign agencies, sovereigns, supranationals, and local authorities.

Intra-month cash flows from interest and principal payments contribute to monthly Index returns but are not reinvested at a short-term reinvestment rate between rebalance dates. At each rebalancing, cash is effectively reinvested into the returns universe for the following month so that Index results over two or more months reflect monthly compounding. One cannot invest directly in an Index.

List of Composites

A complete listing and description of all composites, limited distribution pooled funds, and broad distribution pooled funds is available upon request.

Dispersion

The dispersion of annual returns is measured by the asset weighted standard deviation across gross portfolio returns represented within the composite for the full year.

Performance

Gross returns are presented gross of management fees, custodial fees, and withholding taxes, but net of direct trading expenses. Net-of-fee returns are net of actual investment management fees and direct trading expenses. All returns are based in U.S. dollars and computed using a time-weighted total return. Composite returns are asset weighted individual portfolios computed monthly. Returns for periods exceeding 12 months are annualized. The Dolan McEniry Core Plus Composite includes both price performance and coupon/dividend income as do the Bloomberg U.S. Aggregate Index and Bloomberg U.S. Intermediate Credit Index. Results reflect the reinvestment of dividends, interest and other earnings. The Dolan McEniry performance reflected above is not necessarily indicative of future results and, as a composite of different accounts, does not necessarily reflect the exact performance of any specific account. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

Fee Schedule

Dolan McEniry Capital Management, LLC's standard fee is 0.40% (40bps) of assets under management for accounts over \$2,000,000 USD.

Disclaimer

Past performance is no guarantee of future results. Investing is speculative and involves risk, including the possible loss of principal. Historical returns should not be used as the primary basis for investment decisions. This product should be considered based on the suitability of its strategy in relation to return objectives, risk tolerances, and other investments. Although the statements of fact and data in this document have been obtained from or based upon sources believed to be reliable, Dolan McEniry Capital Management, LLC makes no warranties or representation as to their accuracy, correctness, or reliability, and assumes no liability or responsibility for any omissions or errors.

Dolan McEniry High Yield

Compliance Statement

Dolan McEniry Capital Management, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Dolan McEniry Capital Management, LLC has been independently verified for the periods September 30, 1997 through December 31, 2021. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Dolan McEniry High Yield Composite has had a performance examination for the periods September 30, 2015 through December 31, 2021. The verification and performance examination reports are available upon request.

*Dolan McEniry High Yield inception date is September 30, 2015; 2015 is a three month period.

Definition of the Firm

Dolan McEniry Capital Management, LLC is an independent investment management firm established in 1997 and is an SEC registered investment adviser. Registration of an adviser does not imply a certain level of skill or training. Dolan McEniry Capital Management, LLC manages fixed income accounts utilizing Dolan McEniry's specific strategies for institutional and individual clients.

Definition of the Composite

Dolan McEniry High Yield is a fixed income investment product benchmarked against the Bloomberg U.S. Corporate High Yield Ba/B Index. In this strategy, the firm utilizes entirely U.S. corporate high yield bonds; however, the strategy will invest in U.S. corporate investment grade bonds when appropriate. Dolan McEniry High Yield is approximately 90% U.S. corporate high yield bonds and 10% U.S. corporate investment grade bonds. The Dolan McEniry High Yield Composite was established and created on September 30, 2015.

Non-fee paying accounts represented less than 2% of the composite assets for all periods shown after July 31, 2016. Performance results prior to July 31, 2016 are derived from the returns of fully discretionary separate accounts made up of the firm's own capital. Due to the internal nature of the funds, no management fees have been charged to the accounts throughout their lifespans. There were less than 2% of non-fee paying accounts in the composite as of December 31, 2021.

Benchmark

Bloomberg U.S. Corporate High Yield Ba/B Index

The Index is the Ba/B component of the Bloomberg US Corporate High Yield Index. The Index measures the USD-denominated, high yield, fixed-rate corporate bond market. Bonds from issuers with an emerging markets country of risk, based on the indices' EM country definition, are excluded. The corporate sectors include industrial, financial institutions, and utility. Bonds must have at least one year until final maturity.

Intra-month cash flows from interest and principal payments contribute to monthly Index returns but are not reinvested at a short-term reinvestment rate between rebalance dates. At each rebalancing, cash is effectively reinvested into the returns universe for the following month so that Index results over two or more months reflect monthly compounding. One cannot invest directly in an Index.

List of Composites

A complete listing and description of all composites, limited distribution pooled funds, and broad distribution pooled funds is available upon request.

Dispersion

The dispersion of annual returns is measured by the asset weighted standard deviation across gross portfolio returns represented within the composite for the full year.

Performance

Gross returns are presented gross of management fees, custodial fees, and withholding taxes, but net of direct trading expenses. Net-of-fee returns are net of actual investment management fees and direct trading expenses. Prior to 12/31/2018, net-of-fee returns were based on a model 0.60% (60bps) investment management fee applied monthly and direct trading expense. All returns are based in U.S. dollars and computed using a time-weighted total return. Composite returns are asset weighted individual portfolios computed monthly. Returns for periods exceeding 12 months are annualized. The Dolan McEniry High Yield Composite includes both price performance and coupon/dividend income as does the Bloomberg U.S. Corporate High Yield Ba/B Index. Results reflect the reinvestment of dividends, interest and other earnings. The Dolan McEniry performance reflected above is not necessarily indicative of future results and, as a composite of different accounts, does not necessarily reflect the exact performance of any specific account. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

Fee Schedule

Dolan McEniry Capital Management, LLC's standard fee is 0.60% (60bps) of assets under management for accounts over \$1,000,000 USD.

Disclaimer

Benchmark

Bloomberg U.S. Credit 1-5 Year Index

This Index is the 1-5 year maturity component of the Bloomberg U.S. Credit Index. Must have a maturity from 1 up to (but not including) 5 years. The Index includes both corporate and non-corporate sectors. The corporate sectors are Industrial, Utility, and Finance, which include both U.S. and non-U.S. corporations. The non-corporate sectors are Sovereign, Supranational, Foreign Agency, and Foreign Local Government.

Bloomberg U.S. Credit 1-3 Year Index

This Index is the 1-3 year maturity component of the Bloomberg U.S. Credit Index. Must have a maturity from 1 up to (but not including) 3 years. The Index includes both corporate and non-corporate sectors. The corporate sectors are Industrial, Utility, and Finance, which include both U.S. and non-U.S. corporations. The non-corporate sectors are Sovereign, Supranational, Foreign Agency, and Foreign Local Government.

Intra-month cash flows from interest and principal payments contribute to monthly Index returns but are not reinvested at a short-term reinvestment rate between rebalance dates. At each rebalancing, cash is effectively reinvested into the returns universe for the following month so that Index results over two or more months reflect monthly compounding. One cannot invest directly in an Index.

List of Composites

A complete listing and description of all composites, limited distribution pooled funds, and broad distribution pooled funds is available upon request.

Dispersion

The dispersion of annual returns is measured by the asset weighted standard deviation across gross portfolio returns represented within the composite for the full year.

Performance

Gross returns are presented gross of management fees, custodial fees, and withholding taxes, but net of direct trading expenses. Net-of-fee returns are based on a model 0.40% (40bps) investment management fee applied monthly and direct trading expenses. All returns are based in U.S. dollars and computed using a time-weighted total return. Composite returns are asset weighted individual portfolios computed monthly. Returns for periods exceeding 12 months are annualized. The Dolan McEniry Short Duration Composite includes both price performance and coupon/dividend income as does the Bloomberg U.S. Credit 1-5 Year Index. Results reflect the reinvestment of dividends, interest and other earnings. The Dolan McEniry performance reflected above is not necessarily indicative of future results and, as a composite of different accounts, does not necessarily reflect the exact performance of any specific account. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

Fee Schedule

Dolan McEniry Capital Management, LLC's standard fee is 0.40% (40bps) of assets under management for accounts over \$2,000,000 USD.

Disclaimer

Past performance is no guarantee of future results. Investing is speculative and involves risk, including the possible loss of principal. Historical returns should not be used as the primary basis for investment decisions. This product should be considered based on the suitability of its strategy in relation to return objectives, risk tolerances, and other investments. Disclosures

Additional Indexes

Bloomberg U.S. Corporate Index

The Bloomberg US Corporate Bond Index measures the investment grade, fixed-rate, taxable corporate bond market. It includes USD-denominated securities publicly issued by US and non-US industrial, utility and financial issuers. The US Corporate Index is a component of the US Credit and US Aggregate Indices, and provided the necessary inclusion rules are met, US Corporate Index securities also contribute to the multi-currency Global Aggregate Index.

Bloomberg U.S. Corporate High Yield Index

The Bloomberg US Corporate High Yield Bond Index measures the USO-denominated, high yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody's, Fitch and S&P is Bal/BB+/BB+ or below. Bonds from issuers with an emerging markets country of risk, based on the indices' EM country definition, are excluded. The US Corporate High Yield Index is a component of the US Universal and Global High Yield Indices.

Blomberg U.S. MBS Index

The Bloomberg US Mortgage Backed Securities (MBS) Index tracks agency mortgage backed pass-through securities (both fixed-rate and hybrid ARM) guaranteed by Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC). The index is constructed by grouping individual TBA-deliverable MBS pools into aggregates or generics based on program, coupon and vintage. Introduced in 1985, the GNMA, FHLMC and FNMA fixed-rate indices for 30- and 15-year securities were backdated to January 1976, May 1977, and November 1982, respectively.

Bloomberg U.S. Treasury Index

The index is the U.S. Treasury component of the Bloomberg U.S. Government Index. The Bloomberg U.S. Treasury Index measures the public obligations of the U.S. Treasury with a remaining maturity of one year or more.

S&P 500 Index

The S&P 500® is widely regarded as the best single gauge of large-cap U.S. equities and serves as the foundation for a wide range of investment products. The index includes 500 leading companies and captures approximately 80% coverage of available market capitalization.

Intra-month cash flows from interest and principal payments contribute to monthly Index returns but are not reinvested at a short-term reinvestment rate between rebalance dates. At each rebalancing, cash is effectively reinvested into the returns universe for the following month so that Index results over two or more months reflect monthly compounding. One cannot invest directly in an Index.

Meet Dolan McEniry

Daniel D. Dolan, Jr.

Daniel founded Dolan McEniry in 1997 following a 16 year career in the financial services industry. Daniel previously worked with Morgan Stanley and Salomon Brothers after receiving a B.A. from Lake Forest College in 1980.

At Dolan McEniry, Daniel shares the responsibility of the investment strategy and strategic activities of the firm with Roger McEniry. Also, Daniel is responsible for client relations, new business development, and the overall administrative management of the firm.

Daniel serves as Vice Chair of the Board of Directors for the Shirley Ryan AbilityLab and Chairman of the Keystone Board for the Shirley Ryan AbilityLab. Daniel serves as Chairman of the Board of Directors for MetroSquash. Finally, Daniel serves as a Member of the Board of Directors for US Squash and a Member of the Board of Trustees of Lake Forest College.

Meet Dolan McEniry

Roger S. McEniry

Roger S. McEniry is a Managing Member of Dolan McEniry. Roger directs the investment and strategic activities of the firm and oversees security selection, risk management, and credit analysis, among his other responsibilities. Prior to joining the firm in 2001, Roger spent sixteen years as a partner at a Chicago private equity firm and, before that, was with Citibank in Chicago.

Mr. McEniry is a graduate of Deerfield Academy, Williams College, and the University of Michigan Graduate School of Business. He is a trustee of Rush University Medical Center and a member of the Chairman's Council of the Daniel Murphy Scholarship Fund and is the past president of its board of directors. He is Trustee Emeritus of Deerfield Academy and served as Co-Chair of its Imagine Deerfield Capital Campaign.

Meet Dolan McEniry

Stephen Schubert

A member of the Dolan McEniry team since 1998, Stephen currently serves as the Managing Director of Portfolio Management and Trading. Stephen worked previously with Suntrust Bank and Merrill Lynch, and remains actively involved with the University Club of Chicago. Stephen received his Bachelor of Science degree in Finance from Michigan State University where he competed on the varsity tennis team and graduated with honors.

Jason Scheffler

Jason's time at Dolan McEniry extends back to 2004, leading to his role as Managing Director of Operations and Chief Compliance Officer. Prior to joining the company, his 15 years of experience included work with the Chicago Board of Trade and the Chicago Board Options Exchange. Jason holds a Bachelor of Science in Finance from the University of Illinois at Urbana-Champaign's College of Business.

Katheryn Calderon

Katheryn has been a part of Dolan McEniry since 2005, and is now the Managing Director of Business Development and Client Service. Her previous experience includes work with the Chicago Mercantile Exchange as a Trading Clerk for a Eurodollar Options Trader. Katheryn holds a Bachelor of Arts in Psychology from Georgetown University.
