Dolan McEnery Core Plus Strategy Overview

Dolan McEnery Core Plus is a fixed income investment product that utilizes U.S. corporate investment grade, U.S. corporate high yield and U.S. Treasury securities. Dolan McEnery Core Plus is approximately 75% U.S. corporate investment grade bonds and 25% U.S. corporate high yield bonds. The Dolan McEnery Core Plus Composite was established and created on September 30, 1997.

Performance

Investment Strategy and Process

Dolan McEnery searches for bonds that trade at wide spreads and attractive prices but are issued by companies with acceptable levels of credit risk. The firm's core competence is credit analysis and it does its credit research in-house, not relying at all on credit ratings or third party research. The firm takes a lender's approach to fixed income investing.

Dolan McEnery creates concentrated portfolios of its best ideas. The number of issuers in the product ranges from 25 to 45. This number of holdings provides diversification and yet allows clients to benefit from the firm's analysis.

Strategy Risk Information

	1 Year	3 Year	5 Year	7 Year	10 Year	Inception
Sharpe Ratio	0.49	-0.41	0.28	0.28	0.49	0.97

Risk Profile

Dolan McEniry Core Plus composite risk profile versus its benchmarks since inception.

Dolan McEniry Core Plus inception date is 9/30/1997. eVestment Alliance (eA) is an innovative, web-based provider of comprehensive investment information and analytic technology. eVestment Alliance collects information directly from investment management firms and other sources believed to be reliable. The Risk Profile and Upside Downside Market Capture data is reported since inception by eVestment Alliance as of 12/31/2023. The statistics do not reflect a representation of any one client's experience. Information shown is supplemental to GIPS Report, which are included at the end of this presentation on pages 4-5. A complete list and description of composites is available upon request. The calculation methodology for upside/downside market capture is available upon request. Returns for periods exceeding 12 months are annualized. Past performance is no guarantee of future results. Please see composite disclosures. The data is net of fees.

Market Review

During 2023, positive returns were seen in many fixed income and equity indices as markets navigated falling inflation, improving supply chains, robust economic data and heightened interest rate volatility.

U.S Treasuries rallied significantly, and corporate spreads tightened as the market priced in the end of the Federal Reserve's current rate hiking cycle. The Federal Reserve continues to indicate they are prepared to keep a restrictive monetary policy until inflation is firmly under control. Overall, credit quality remains strong although there have been pockets of deterioration. Dolan McEniry will continue to monitor markets for any opportunities that may arise.

During the year, treasury rates decreased, and the curve remained inverted as the 10 year U.S. Treasury yield was unchanged at 3.88%, the 5 year yield decreased from 4.01% to 3.85% and the 2 year yield decreased from 4.43% to 4.25%.

Per Bloomberg data, spreads of corporate investment grade bonds tightened 31 basis points during the year to an average option adjusted spread ("OAS") of +99 basis points. The OAS of the Bloomberg Corporate High Yield Index tightened 146 basis points to +323 basis points at year end.

Portfolio Commentary

During the year, the Dolan McEniry Core Plus Composite had a gross return of +8.26% and +8.04% net versus the Bloomberg U.S. Aggregate Bond benchmark return of +5.53% and Bloomberg U.S. Intermediate Credit benchmark return of +6.94%. Sector attribution versus the benchmarks is provided in the following table:

	Dolan McEniry Core Plus (Gross)	Dolan McEniry Core Plus (Net)	Bloomberg U.S. Aggregate	Bloomberg U.S. Intermediate Credit
Treasuries	+3.88%	+3.88%	+4.05%	+0.00%
Government Related	+0.00%	+0.00%	+5.83%	+4.90%
Corporate Bonds IG	+7.81%	+7.81%	+8.52%	+7.29%
Corporate Bonds HY	+10.19%	+10.19%	+0.00%	+0.00%
MBS	+0.00%	+0.00%	+5.08%	+0.00%
Cash (including fees)	+2.23%	+2.01%	+0.00%	+0.00%
Total	+8.26%	+8.04%	+5.53%	+6.94%

On a relative basis, the Dolan McEniry Core Plus Composite outperformed the Bloomberg U.S. Aggregate Bond Index by 251 basis points for the year. The composite's outperformance was driven by the allocation and performance in the corporate high yield sector which was partially offset by the performance in corporate investment grade sector. The yield curve positioning and duration had a negative effect on relative performance versus the benchmark.

On a relative basis, the Dolan McEniry Core Plus Composite outperformed the Bloomberg U.S. Credit Intermediate Index by 110 basis points for the year. The composite's outperformance was driven by the allocation and performance in the corporate high yield sector and the corporate investment grade sector. The yield curve positioning and duration had a minimal effect on relative performance versus the benchmark.

Outlook and Strategy

Dolan McEniry believes that client portfolios are positioned to provide reasonable absolute and relative returns going forward. Dolan McEniry's core competence is credit analysis, and we focus on a company's ability to generate generous amounts of free cash flow over time in relation to its indebtedness. Investment safety and risk mitigation are of primary importance as we continue to search for undervalued fixed income securities. As of December 31st, the Dolan McEniry Core Plus Composite had a +79 basis point yield premium and shorter duration to the Bloomberg U.S. Aggregate Bond and a +43 basis point yield premium and similar duration versus the Bloomberg U.S. Intermediate Credit. We believe these stats will allow the portfolio to perform well versus the benchmarks over time.

Security Selection

1. Composite dispersion is not presented for years where there are 5 or fewer portfolios in the composite for the full year because it is not statistically meaningful.
2. The 3-year ex-post standard deviation is not required to be presented for periods prior to 2011 or when 36 monthly composite returns are not available. Monthly gross composite returns are used in the calculation.

Compliance Statement

Dolan McEniry Capital Management, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Dolan McEniry Capital Management, LLC has been independently verified for the periods September 30, 1997 through December 31, 2021. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Dolan McEniry Core Plus Composite has had a performance examination for the periods September 30, 1997 through December 31, 2021. The verification and performance examination reports are available upon request.

*Dolan McEniry Core Plus inception date is September 30, 1997; 1997 is a three month period.

Definition of the Firm

Dolan McEniry Capital Management, LLC is an independent investment management firm established in 1997 and is an SEC registered investment adviser. Registration of an adviser does not imply a certain level of skill or training. Dolan McEniry Capital Management, LLC manages fixed income accounts utilizing Dolan McEniry's specific strategies for institutional and individual clients.

Definition of the Composite

Dolan McEniry Core Plus is a fixed income investment product benchmarked against the Bloomberg U.S. Aggregate Index or the Bloomberg U.S. Intermediate Credit Index. In this strategy, the firm utilizes U.S. corporate investment grade, U.S. corporate high yield and U.S. Treasury securities. Dolan McEniry Core Plus is approximately 75% U.S. corporate investment grade bonds and 25% U.S. corporate high yield bonds. The Dolan McEniry Core Plus Composite was established and created on September 30, 1997.

Dolan McEniry began including accounts that are valued under \$1,000,000 USD in the composite as of December 31, 2009. Prior to December 31, 2009 an account had to have a value over \$1,000,000 USD to be included in the composite.

Non-fee paying accounts represented less than 2% of the composite assets for all periods shown.

Benchmark

Bloomberg U.S. Aggregate Index

The Index is a broad-based flagship benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market. The Index includes Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-throughs), ABS, and CMBS (agency and non-agency).

Bloomberg U.S. Intermediate Credit Index

The Index is the intermediate component of the Bloomberg U.S. Credit Index. The Bloomberg U.S. Credit Index measures the investment grade, US dollar-denominated, fixed-rate, taxable, corporate and government –related bond markets. It is composed of the US Corporate Index and a non-corporate component that includes foreign agencies, sovereigns, supranationals, and local authorities.

Intra-month cash flows from interest and principal payments contribute to monthly Index returns but are not reinvested at a short-term reinvestment rate between rebalance dates. At each rebalancing, cash is effectively reinvested into the returns universe for the following month so that Index results over two or more months reflect monthly compounding. One cannot invest directly in an Index.

List of Composites

A complete listing and description of all composites, limited distribution pooled funds, and broad distribution pooled funds is available upon request.

Dispersion

The dispersion of annual returns is measured by the asset weighted standard deviation across gross portfolio returns represented within the composite for the full year.

Performance

Gross returns are presented gross of management fees, custodial fees, and withholding taxes, but net of direct trading expenses. Net-of-fee returns are net of actual investment management fees and direct trading expenses. All returns are based in U.S. dollars and computed using a time-weighted total return. Composite returns are asset weighted individual portfolios computed monthly. Returns for periods exceeding 12 months are annualized.

The Dolan McEniry Core Plus Composite includes both price performance and coupon/dividend income as do the Bloomberg U.S. Aggregate Index and Bloomberg U.S. Intermediate Credit Index. Results reflect the reinvestment of dividends, interest and other earnings. The Dolan McEniry performance reflected above is not necessarily indicative of future results and, as a composite of different accounts, does not necessarily reflect the exact performance of any specific account. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

Fee Schedule

Dolan McEniry Capital Management, LLC's standard fee is 0.40% (40bps) of assets under management for accounts over \$2,000,000 USD.
