Global Growth

Going beyond with Polen Capital

**Our mission is to
preserve and grow client
assets to protect their
present and enable their
future.**

Going Beyond Expectations

Polen Capital is a team of experienced investment industry professionals who share an unwavering commitment to our clients, investors, community and each other. For more than three decades, we have been dedicated to serving investors by providing active, high-conviction portfolios. At Polen Capital, we have built a culture of results, and in this, an inherent belief in going beyond what's expected for the people and communities we serve.

- We adhere to a time-tested process of researching and analyzing what we see as the highest-quality companies around the globe
- We invest for the long haul and with a business owner's mindset—giving these companies time to grow
- We remain passionate about our mission to protect and grow capital

We are an Enduring, Purpose-Driven Firm Committed to Sustainability

We are dedicated to doing the right thing for our stakeholders, including our clients, colleagues, and community. We strive to be a leader in sustainable business practices and commit to drive continuous improvement.

We are dedicated to a growth mindset and actively support the whole employee through programs to enhance mental and physical well-being, training and personal development.

We are committed to minimizing our environmental impact through measuring, monitoring, and setting goals for improvement.

We cultivate an environment of acceptance and inclusion such that each employee can be their true and best self.

We believe that diversity of thought contributes to better outcomes, and we promote diversity within our firm and across the asset management industry.

We are passionate about community involvement, sharing our resources and talents to benefit others. We believe the stronger we are as a community, the more enduring we are as a firm.

Independent, High-Conviction Investing with Global Reach

High-Conviction, Active Investment Manager

Education: B.S. in Finance from the University of Idaho and M.S. in Global Finance from the NYU Stern School of Business and HKUST Business School

Global Growth

Going beyond fundamentals

How Polen Capital Goes Beyond for Our Clients

Investment Philosophy

Concentrated Portfolio: "High Active Share"

- Portfolios constructed with a select group of high-quality companies that we believe effectively balance stakeholder interests
- Use the guardrails of strong balance sheets, abundant free cash flow, strong ROE (> 20%), stable to improving margins, and real-organic revenue growth
- Best ideas portfolio—impartial to index sector and position weightings
- Strategies invest in a range of 20-30 companies

Long Holding/Compounding Period: "Time Arbitrage"

- Long-term focus on company fundamentals and competitive advantages
- Portfolio returns are generated through the compound earnings growth of competitively advantaged companies owned for many years—we believe share prices follow earnings growth
- The flagship Focus Growth portfolio has only invested in ~125 companies since inception
- Average holding period is about five years

Risk Management: "Don't Lose Mentality"

- Seek to only invest in companies with unique value propositions that are competitively advantaged and financially robust— Margin of Safety
- Focus on long-term preservation of capital
- Portfolio construction parameters include position size limits and sector weight limits
- Currency, policy and political risks are considered regarding investment outside of the United States

Outcome Orientation: "Weighing Machine vs. Voting Machine"

- Seeking compelling returns with lower levels of risk
- More than 30 years of evidenced success through consistent application of our investment process
- No market predictions, always fully invested
- Unemotional selling with an absolute return mentality

The Polen Capital Investment Process

4: Portfolio Construction & Management

- Construct portfolio of competitively advantaged growth businesses
- Continue to monitor objectively
- Utilize unemotional selling–absolute return mentality

~25-35

Portfolio Holdings

3: Iterative Deep Dive Research

- Assess industry dynamics and growth
- Identify company-specific competitive advantages
- Evaluate competitive dynamics/potential changes
- Valuation work based on free cash flow
- Examine/interview management based on track record
- Identify pre-mortem
- Sustainable investing analysis/review

~150

Coverage Universe

2: Initial Research Project

- Test sustainability of strong financials
- Determine cyclical influence on financials
- Rule out fad/fashion impacts

350

Candidates

1: Apply Guardrails

- ROE above 20% sustained
- Exceptionally strong balance sheet
- Stable or growing profit margins
- Abundant free cash flow
- Real-organic revenue growth

3,000

Stock Universe

Buy Process—We Seek the Best of the Best

Steps for Inclusion

Idea Generation	Independent & Business-focused Research			Portfolio Manager Review	
Guardrails Screen	Initial Research Project	Presentation & Discussion	Iterative Deep Dive Research	Final Decision	Ongoing Review
Polen hurdles	First qualitative look into the business, its stakeholders and what they value, and potential competitive advantages	Initial presentation to focus further research	Full research effort to build investment case and identify risks including pre-mortem	Portfolio construction	Evaluate expected return and any changes to investment case

For Financial Professional Use Only. Source: FactSet. Data as of fiscal year-end. Annual EPS is Non-GAAP where available. Stock Purchase Date: ACN in Global Growth Portfolio – January 2015 (Inception Date). The information presented is for illustrative purposes only and does not constitute an exhaustive explanation of the investment process. Past investments and results are not necessarily indicative of any future investments or results. The nature of, and risk associated with any future investments may differ substantially from any prior investment. Accenture is represented on this slide due to its longevity as a holding within the Global Growth portfolio. Please see Disclosures page for disclosure #1.

Sell Discipline—Unemotional Selling

Factors That May Influence Sell Decision

Historical annual turnover is less than 30% / Average holding period has been approximately 5 years			
Threat to Competitive Advantage	Deterioration in Fundamentals/Outlook	Identification of a Superior Alternative	Expected Return
Potential or actual impairment of the sustainable competitive advantage, inability to quantify business or industry risk. Questionable quality of management decision making (i.e. capital allocation decisions)	<p>Reduced Earnings Growth</p> <p>Margin Compression</p> <p>Declining Return on Equity</p> <p>Increasing Debt to Total Capital</p>	A more attractive sustainable growth opportunity	Reduction in the probability of earning an appropriate investment return for our clients over the next five years

Reflects all Global Growth portfolio holdings as of 03-31-2024. These characteristics relate to underlying company attributes and are not intended to reflect any present or future market performance of company securities or any Polen portfolio. ¹Net Debt/Free Cash Flow ratio excludes companies in the benchmark with negative FCF over the TTM period. ²Our estimates for the market indices are approximate and based on long-term historical data which captures different market cycles. NMF (No Meaningful Figure) is a designation used when an individual financial ratio has a negative denominator or an outlier value (e.g., greater than 100x or 100%, less than 0%) which we view as not representative of the ongoing underlying economics of the business, likely due to transitory issues or GAAP accounting limitations. This figure is also excluded from the weighted average portfolio calculation in an effort to avoid distorting aggregate portfolio characteristics, but remains included in the benchmark calculation unless otherwise noted. Additional information is available upon request. Source: Bloomberg, Polen Capital. Please see Disclosures page for disclosure #1, #2 & #4. **For Financial Professional Use Only.**

Performance % as of 12-31-2023:

(Annualized returns are presented for periods greater than one year)

	1 Yr	5 Yr	10 Yr	Inception
Polen Global Growth (Gross)	32.38	13.24	-	12.29
Polen Global Growth (Net)	30.92	12.22	-	11.30
MSCI ACWI	22.20	11.73	-	8.35

¹A 3 Year Standard Deviation is not available for 2015 and 2016 due to 36 monthly returns are not available.

Some versions of this GIPS Report previously included assets of the Firm's wholly-owned subsidiary in the 2022 Firm Assets figure, in error. The figure above has been corrected to no longer count assets at the subsidiary level.

Total assets and UMA assets are supplemental information to the GIPS Composite Report.

N/A - There are five or fewer accounts in the composite the entire year.

While pitch books are updated quarterly to include composite performance through the most recent quarter, we use the GIPS Report that includes annual returns only. To minimize the risk of error we update the GIPS Report annually. This is typically updated by the end of the first quarter.

The Global Growth Composite created and inceptioned on January 1, 2015 contains fully discretionary global growth accounts that are not managed within a wrap fee structure and for comparison purposes is measured against MSCI ACWI. Prior to October 18, 2016, the benchmark for the Global Growth Composite was the MSCI ACWI variant with gross dividends. As of October 18, 2016, the benchmark was changed retroactively to the MSCI ACWI variant with net dividends, to more accurately reflect the Global Growth Composite's strategy. Effective January 2022, fully discretionary large cap equity accounts managed as part of our Global Growth strategy that adhere to the rules and regulations applicable to registered investment companies subject to the U.S. Investment Company Act of 1940 were included into the Global Growth Composite. The accounts comprising the portfolios are highly concentrated and are not constrained by EU diversification regulations.

Polen Capital Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Polen Capital Management has been independently verified for the periods April 1, 1992 through December 31, 2022. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Polen Capital Management is an independent registered investment adviser. Polen Capital Management maintains related entities which together invest exclusively in equity portfolios consisting of high-quality companies. A list of all composite and pooled fund investment strategies offered by the firm, with a description of each strategy, is available upon request. In July 2007, the firm was reorganized from an S-corporation into an LLC and changed names from Polen Capital Management, Inc. to Polen Capital Management, LLC. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm.

Effective January 1, 2022, composite policy requires the temporary removal of any portfolio incurring a client initiated significant net cash inflow or outflow of 10% or greater of portfolio assets, provided, however, if invoking this policy would result in all accounts being removed for a month, this policy shall not apply for that month. The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using either actual management fees or highest fees for fund structures. The annual composite dispersion presented is an asset-weighted standard deviation using returns presented gross of management fees calculated for the accounts in the composite the entire year. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The separate account management fee schedule is as follows:

Institutional: Per annum fees for managing accounts are 85 basis points (0.85%) on the first \$50 Million and 65 basis points (0.65%) on all assets above \$50 Million of assets under management. HNW: Per annum fees for managing accounts are 160 basis points (1.60%) of the first \$500,000 of assets under management and 110 basis points (1.10%) of amounts above \$500,000 of assets under management. Actual investment advisory fees incurred by clients may vary.

The per annum fee schedule for managing the Polen Global Growth Fund, which is included in the Global Growth Composite, is 85 basis points (.85%). The total annual fund operating expenses are up to 135 basis points (1.35%). As of 9/1/2023, the mutual fund expense ratio goes up to 1.26%. This figure may vary from year to year.

The per annum fee schedule for managing the Polen Capital Global Growth ETF, which is included in the Global Growth Composite, is 85 basis points (.85%). The total annual fund operating expenses are up to 85 basis points (.85%).

Past performance does not guarantee future results and future accuracy and profitable results cannot be guaranteed. Performance figures are presented gross and net of management fees and have been calculated after the deduction of all transaction costs and commissions. Portfolio returns are net of all foreign non-reclaimable withholding taxes. Reclaimable withholding taxes are reflected as income if and when received. Polen Capital is an SEC registered investment advisor and its investment advisory fees are described in its Form ADV Part 2A. The advisory fees will reduce clients' returns. The chart below depicts the effect of a 1% management fee on the growth of one dollar over a 10 year period at 10% (9% after fees) and 20% (19% after fees) assumed rates of return.

The MSCI ACWI Index is a market capitalization weighted equity index that measures the performance of large and mid-cap segments across developed and emerging market countries. The index is maintained by Morgan Stanley Capital International.

The volatility and other material characteristics of the indices referenced may be materially different from the performance achieved. In addition, the composite's holdings may be materially different from those within the index. Indices are unmanaged and one cannot invest directly in an index.

The information provided in this document should not be construed as a recommendation to purchase or sell any particular security. There is no assurance that any securities discussed herein will remain in the composite or that the securities sold will not be repurchased. The securities discussed do not represent the composite's entire portfolio. Actual holdings will vary depending on the size of the account, cash flows, and restrictions. It should not be assumed that any of the securities transactions or holdings discussed will prove to be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance of the securities discussed herein. Disclosures

1. The information provided in this document should not be construed as a recommendation to purchase or sell any particular security. There is no assurance that any securities discussed herein will be in the composite at the time you receive this document or that any securities sold have not been repurchased. The securities discussed do not necessarily represent the composite's entire portfolio. Actual holdings will vary depending on the size of the account, cash flows, restrictions, and any trade orders in progress on the date as of when holdings are shown. It should not be assumed that any of the securities transactions or holdings discussed were or will prove to be profitable or that any investment recommendations we make in the future will equal the investment performance of the securities discussed herein. For a complete list of Polen's past specific recommendations holdings and current holdings as of the current quarter end, please contact info@polencapital.com.
2. Portfolio characteristics are shown as of March 31, 2024. These characteristics relate to underlying company attributes and are not measures of performance. There can be no guarantee that the portfolio or its holdings will exhibit identical or similar characteristics to those shown at any future time of investment. Investments are subject to risks, including the possibility that the value of any investment (and income derived thereof (if any)) can increase, decrease or in some cases, be entirely lost and investors may not get back the amount originally invested. This document does not identify all the risks (direct or indirect) or other considerations which might be material to you when entering any financial transaction. The views and strategies described may not be suitable for all clients.
3. Supplemental information to the fully compliant composite performance which accompanies this presentation. **Past performance is not indicative of future results.**
4. The volatility and other material characteristics of the indices referenced may be materially different from the performance achieved. In addition, the composite's holdings may be materially different from those within the Index. Indices are unmanaged and one cannot invest directly in an index. The MSCI ACWI Index is a market capitalization weighted equity index that measures the performance of large and mid-cap segments across developed and emerging market countries. The index is maintained by Morgan Stanley Capital International.
5. Contribution to relative return is a measure of a security's contribution to the relative return of a portfolio versus its benchmark index. The calculation can be approximated by the following formula, taking into account purchases and sales of the security over the measurement period. Please note this calculation does not take into account transactional costs and dividends of the benchmark, as it does for the portfolio. Contribution to relative return of Stock A = (Stock A portfolio weight (%) - Stock A benchmark weight (%)) x (Stock A return (%) - Aggregate benchmark return (%)).
